EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. David French on 22 June 2006.

The application has been amended as follows:

- o Claim 40 has been canceled.
- o The dependency of claims 23, 24, 31, 34, and 39 has been changed from claim 22 to claim 21.

The following is an examiner's statement of reasons for allowance: The prior art made of record fails to show a device for injecting fluid into a tree as claimed, wherein the needle in the nozzle is recessed in said nozzle first end such that it does not extend beyond the edge of said first end so that the needle tip would not break off during a hammering operation, and wherein the other end is shaped to be fit into a hole drilled into a tree.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
